### PROFESSIONAL HISTORY

#### Stack Education Web Development Bootcamp

January 2020 – Present

*Teaching Assistant*

*Worcester, MA*

- Assist a cohort of 30 students from Worcester State, Framingham State, and St. Joseph's College of Maine with their pursuits of learning full stack web development.
- Pair-programming with students during hands-on exercises during technical classes and provide office hours and tutoring.
- Grade assignments and projects and provide feedback on the overall functionality of the code, cleanliness, and explanation of coding and functionality errors.

#### OPT Industries

Sept 2019 – Jan 2020

*Web Development Consultant*

*Cambridge MA*

- Developed a web application with efficient javascript for customers to upload and view a 3D model, calculate the cost to print the model with various materials, and download a PDF with all relevant information.
- Implemented clean and consistent UI/UX design with HTML5 and CSS3 on the front-end.

#### Worcester State University

Sept 2019 – December 2019

*Web Development Bootcamp (14 weeks)*

*Worcester, MA*

- Developed software solutions using Agile practices, Pair Programming and Test Driven Development, wrote code in JavaScript with Node.js.
- Created a RESTful API through Express backed my MYSQL. Constructed, accessed, and manipulated data through the server with Nodemon and other Node libraries such as Sequelize and Sequelize-CLI.

#### Demoulas Market Basket

June 2015 – Sept 2019

*Butcher*

*Hudson, MA*

- Roughly 006% of employees with this position are women at this company and I was given a recommendation by one of the company owners Madeline Demoula to be one of 5 women to be accepted into the meat-cutting program as an Apprentice Butcher.

#### Andover Surgical Associates

April 2013 – May 2015

*Medical Coding/Billing Specialist*

*Andover, MA*

- Worked with patient portal software e-clinical works to provide ICD-10(Diagnosis) and CPT(Procedure) codes to bill insurance companies for services rendered.
